

PUBLIC SCHOOL OVERCROWDED AT PRESENT

Board Decides to Secure Additional Quarters and Employ Another Teacher— Reids Hall to be Used

At the regular meeting of the school board held last Tuesday it was reported that owing to the increased number of children now attending school some of the rooms were taxed to their utmost while others were taxed to their utmost while others were greatly overcrowded.

After reviewing the situation the board deemed it advisable to secure additional quarters. As the eight rooms in the school building are occupied it was a question of securing accommodation elsewhere. Trustee McLachlan was appointed to see if arrangements could be made with J. C. Reid to rent a portion of Reid's hall for this purpose and he understood it has been successful in making satisfactory arrangements.

As the primary room now has twenty-five more pupils than it can properly accommodate it is the intention to divide this room and take the surplus to the new quarters in Reid's hall. This will necessitate the engaging of another teacher and it is hoped to have them done in time to open the new quarters in the beginning of next month.

Harvest Vale School Ready for Business

The new school in the newly created school district of Harvest Vale just north of here, is now completed and will be opened up for business next week.

This school was built from plans provided by the provincial department of education. It is one of the newest and most complete schools in this section of the country and is a credit to the new district. The grounds are well fenced and we understand it is the intention of the board to have trees planted next spring and to play grounds laid out in modern style.

Those responsible for the creation of this school district are deserving of great praise for their persevering of which they stuck to the task before them. In the preliminary work many obstacles presented themselves but these were surmounted one by one until now we feel sure their untiring efforts have been amply rewarded.

Miss Freckleton had been engaged to teach the new school.

We understand that the school will be used for holding service in every Sunday afternoon.

Means Discovered

To Deflect Torpedoes

According to a report from Washington Thomas A. Edison has contrived a mechanism to deflect torpedoes from their course. The report says the device has been tested with success on several destroyers and has been installed on some liners.

It is believed that the extraordinary gyrations of a torpedo which missed a big American liner which arrived at an Atlantic port recently, was due to the passengers and crew. One of the ship's officers seemed to believe, to some new wrinkle developed in a German laboratory, but to the genius of Mr. Edison.

ANNOUNCEMENT

We wish to inform young men who are desirous of joining the army before conscription is made known that the Army Medical Corps is still recruiting men for overseas service, and the present pay probably be the last opportunity they will have of joining this popular unit. Under conscription it seems likely that there will be no choice as to the branch of the army in which a man will serve, and we would urge eligible men to take advantage of this opportunity before it is too late. We realize that there may be some who are under the impression that voluntary enlistment is already at an end, and we wish to correct any misapprehension that may be in this regard. By applying to Recruiting Headquarters, at the Training Depot No. 18, Barrack Camp, Alberta, full information can be obtained.

Pte. Everett Returns From the Hospital

Private Robt. Everett, a returned Redcliff boy, who has been in a military hospital in Calgary for the past few months undergoing treatment for wounds received at the front, returned to Redcliff this week and will remain here awaiting his discharge. Everett had his right hand badly shattered and although the wound is completely healed he is unfit for further service at the front.

While in England Private Everett was promoted to Staff Sergeant but later reverted to the rank in order to be able to get over to France in a draft.

While convalescing in Calgary took a great interest in all patriotic movements and to the Review he said he brought a very encouraging and flattering message to the people of Redcliff from the secretary and management of the Red Cross headquarters.

Both these officials said they were proud of the splendid work being done by the Red Cross in this district and assured him that when the records were completed Redcliff would stand well up to the front among Alberta towns of its size.

Private Everett has been requested by the headquarters staff of the Red Cross to address meetings in other Alberta towns to help along the work and he has consented to do so.

Milling Companies Fix Floor Prices

All the big milling companies have agreed on a price for flour and also on certain changes in the matter of discounts to the retailers. The fixed price for flour has been made in Canada, and in the price for wheat in the United States. The companies have made their prices as early in accord with the American prices as possible. This is the American law limits the profit to 25 per cent, and on feed to 50 per cent.

The cash price in carlots for Rural Household, Five Roses and Purdy, basis per barrel of 96 pounds in 98-pound cotton or jute sacks, is as follows: Household, \$10.00; Five Roses, \$10.00; Purdy, \$10.00.

Ontario, west of and including Port William and Port Arthur, The Pas, Manitoba, east of and including Portage la Prairie, \$11.00.

Manitoba, west of Portage la Prairie, \$11.00; Alberta, east of and including Macleod, Calgary, Red Deer, Edmonton, \$11.00.

On the above basis No. 1 grade flour can be retailed in Redcliff for \$6.00, after allowing the retail merchants 10 per cent profit for handling. If the retailers' margin is less than 10 per cent, the price will decrease in proportion down to the actual cost of \$4.50 for a 95-pound sack.

Allied Bomb Kills 900 Germans

In a recent raid by the Entente Allies down on the Belgian town of Roulers, says a newspaper of Holland, a bomb fell on a building near the market and killed or wounded 900 Germans.

ADDITIONAL LOCALS

The R. B. Stoner plant is working overtime shifts days to keep up with the orders coming in from all parts of the west for the grain tanks they are now manufacturing. Since our last issue two car-loads of these tanks have been shipped.

J. Jarline received a letter from his wife last night in active service. The son reports that he had just recovered from illness caused by being buried by a bursting shell. He had been in a base hospital for two weeks but expected to return to the trenches again shortly.

There are still a few men who put down their names for stated amounts on the Labor Day subscription. These have not yet paid in their money to the collectors. As these responsible citizens have made good their subscription, the delinquents should be asked to do so as soon as possible.

Young and old are familiar with the history of Joan of Arc, the French heroine and the important part she played in the wars of that country in other troublesome times in its history. The life and work of this brave girl will be shown on the canvas in the Amuse-U theatre on Thursday, Sept. 27th. Young and old

"The Average Man."

When it comes to a question of trusting yourself to the risks of the road, the very best plan now on the spread and rivals clearly for show and spectacular effect the "Birth of a Nation."

The Red Cross executive will meet in the rooms next Tuesday afternoon. Catholic services are now being held regularly twice a month in Crowe's hall.

The Amuse-U is now running at matinee every Saturday afternoon. Children free.

Another of those delightful teas to be given by the Presbyterian Ladies Aid on Friday afternoon. Be sure you get a cup.

The Rebekahs attend the Presbyterian church in a body next Sabbath evening. The Odd Fellows, of course, will attend their sisters.

Mrs. J. C. Caldwell and family, who have been on the farm all summer, will return after a short absence.

NOTICE—The members of the Redcliff Chautauque will meet at J. C. Crowe's Pool Room at 8:00 p. m. Tuesday evening, September 25th, to help in the campaign for next year.

During the summer months the United Bible Class suspended studies. Now it resumes, and we trust with a good start. Help make its beginning bright by your presence next Sabbath afternoon in the Presbyterian church at half past three.

The secretary of the French Emergency fund has sent notices to the farmers of the district regarding this movement. Enclosed in these notices is a blank form and it is hoped these receiving them will not overlook filling them in and returning them to either of the banks here.

Kenneth Meek, who has conducted a large ranch north of here for several years, has sold out to J. L. Peacock. The sale includes a large leasehold, over 2,000 acres of fresh, good land of cattle, horses, implements, etc. The Meek ranch is in the Spinix district.

Local Masonic Lodge Entertains the Ladies

LOCAL MASONIC LODGE The officers and members of Quarry Lodge, A. F. & A. M., entertained a lady friend in a social evening in Redcliff hall last Thursday evening.

A whist drive was the first item on the program. The ladies were most heartily and a keen contest was the result. As there was one gentleman short to fill the table, Miss Hyde kindly volunteered to act as a gentleman for the occasion. In this she proved herself more than a match for her gentlemen competitors, as she won the prize for the highest score by a good lead. Mrs. J. Ellis won the first prize for the ladies. The booth prizes were won by Mrs. Cook and T. J. Amshel.

After the whist drive there was a social hour, which was followed by the serving of light refreshments. The next item on the program was a singing and a short address was entered into by all present. On the whole a most enjoyable evening was spent.

Union Bible Class. The class will resume its work on Sabbath afternoon at half past three in the Presbyterian church. All are kindly invited to attend. The orchestra which has rendered such good service in the past to the class, will occupy its old place of usefulness. The class is thoroughly un denominational.

According to the Hunsbushland, the population of the Belgian city of Roulers, helped the German front, and the transportation of the inhabitants at Ottend has been begun. The newspaper says 2,000 people have been evacuated from Ottend, and that many Belgians have been forced to work on the defense of Tournai.

Albert Champion, a French soldier who on his third attempt, has just escaped from Germany, brings the information, according to the Paris edition of the New York Herald, that 1,700 French and British soldiers and 1,500 Hungarians have died from typhus at German camps at Kassel, 90 miles northeast of Frankfurt-on-the-Main.

Joe Tarrant is Reported Wounded

Mr. Scull, of the Redcliff hotel, received a letter from Joe Tarrant this week stating that Joe had been wounded in the leg and arm and was in the military hospital at Brompton, Shewsbury, England. Tarrant, a Redcliff boy, was the third to be returned to the trenches again when he got word that his sister had passed away.

Joe is a pioneer of Redcliff and his large circle of friends here will anxiously look forward for word of his ultimate recovery.

Box Springs House Destroyed by Fire

The residence of J. Brockie, a prosperous young farmer of the Box Springs district, was burned to the ground last Monday morning about half past three.

Mrs. Brockie and child were alone in the house at the time and before Mrs. Brockie was called in from a nearby place where she was plowing, the flames were beyond control. The fire is supposed to have started from the kitchen where as Mrs. Brockie was working in another part of the house it was not noticed till the kitchen was all ablaze. As the building was all frame the flames spread rapidly and Mrs. Brockie and child escaped with only what clothing they had on.

The cause of the fire was not ascertained as the fire arrived so quickly as possible to lend their assistance nothing was saved and the damage and contents is a total loss. The loss is estimated at about \$10,000, with no insurance.

Mrs. Brockie was in town Tuesday purchasing lumber and intends to rebuild at once. In the meantime Joe and Mrs. Brockie and child are staying with their neighbors, Mr. Williams.

Bride Gets Lost While in Redcliff

C. A. Caldwell, who is now in town doing some painting, had a nerve-racking experience last Monday afternoon when he was out for a time looking for his bride. Caldwell was out for a time looking for his bride. Caldwell was out for a time looking for his bride.

Ready to Enforce Military Service Act

Steps taken under the military service act, and a course of action for the future were discussed in some detail at a conference held in Ottawa last Tuesday.

The military service council outlined the work accomplished in preparation for the calling out of the first class of men under the act, and it was decided to proceed with as little delay as possible.

Registrars for all the provinces have been appointed and the creation of machinery for handling appeals is well in hand.

When arrangements have been completed, the proclamation, calling out the first class—unmarried men and widowers, between 20 and 34—will be issued. Additional reports received by the military council indicate that full use is being made of the medical boards where they are at work.

General Korniloff Now in Prison

Twenty-three generals and other officers arrested on Friday with Gen. Korniloff, the commander of the revolution, against the provisional government, are being closely guarded. Gen. Korniloff is held in a hotel at Makhov, where he is writing a statement which is expected to be finished shortly.

Rolling Mills Secure Additional Space

Owing to the rapidly increasing business at the Rolling Mills here the management have decided it is necessary to secure additional space for storing their work. For this purpose they have secured a lease of the building previously used of a plating mill and factory by the British-Viscose Company.

It is the intention to have the roof replaced on this building at once and the necessary machinery installed for the making of patterns to be used in the different machinery in the Rolling Mills. This work will be rushed through as quickly as possible, and the staff set to work.

At the present time this plant is running night and day and are considerably handicapped on account of the shortage of labor. More men are being added to the staff every day but there is still room for them thirty to forty more men.

It is also the intention of this company to make new additions to the plant just as soon as the necessary material and labor can be secured.

Medicine Haul Raises The Price of Gas

At their regular meeting this week the Medicine Hat city council took the plunge and decided to raise the price of gas for domestic use from 15 cents gross to 20 cents a 1,000 feet bill.

The council also decided that all recommendations of the committee that all manufacturers whose agreement does not exempt them, will be charged 5 cents a thousand feet.

Under the old system of allowing a discount, gas for domestic use was costing householders 15 cents, so that the increase to 20 cents is practically a 50 per cent increase.

The council also decided that all new dependents be allowed 50 per cent of gas and water accounts from October 1st to April 1st inclusive. Hereafter householders' dependents are getting free gas and water.

The raising of water rates to all householders is also being considered by the council.

Canadian Bacon and Ham For Britain

Shipments of bacon, lard, butter and ham from Canada to the United Kingdom will continue to take place. The recent embargo was of a technical character, designed to compel export through the British government's buying agency in the United States. This agency will buy the quantities needed by Britain and her allies and make provision for shipment of them overseas. At least 50 per cent of the Canadian output will be imported and sold at fixed prices in the United Kingdom.

Whether this will involve lower prices in Canada is not yet clear. The original embargo was of the immediate force, and last week dealers in the east said they anticipated a further decrease in the immediate future.

Last year Canadian exports of bacon to Great Britain exceeded \$300,000,000. This year presumably the demand will be as great.

300,000 Sammies To Start Training

More than 300,000 men of the national army of the United States will go forward at once to the 16 cantonments to be trained for the battle of France. The move will be a fighting men towards the battlefields of France. The whole nation will be able to see the movement of the selective forces. The men represent approximately 45 per cent of the total quota under the first call for men.

Borden Promises National Government

That it is both his purpose and his expectation to form a national government before the general election now imminent, but if that should prove impossible, he will certainly do so afterwards. The statement of Premier Borden in a letter addressed to E. P. Davis, M. C., a prominent Vancouver Liberal.

THURSDAY, SEPT. 20, 1917.

IT'S UP TO YOU.

Is life worth living? Well, that depends
On the way you look at it day by day;

On the manner in which you treat your friends,
And the flowers you plant along the way;

On the tune of gladness that you're looking through—
Whether it clouded be or clear—

On the cup that you set with
Scent to brew.

And the things that come with the passing year,
Is life worth living? It's up to you!

AN EXPLANATION.

At the Red Cross lunch room on Labor Day a number of donations in cash were made by farmers of the surrounding district. These donations were put in the general proceeds and handed over to the treasurer of the society in a lump sum with the other receipts. As a result no mention was made of the individual contributions, as those in charge did not think this necessary. After the statements were made out by the several committees and handed to the treasurer, other contributions came in from different sources and these were entered as individual donations, as it was the only way they could be entered to keep the books straight.

We have been asked to make this explanation so that those who gave cash donations at the lunch room during the day will know why they have not been given credit for their contribution in the financial statement as published last week.

GET EXAMINED.

As all arrangements are now almost completed for the putting into operation of the Military Service Act, it would be well if all affected by the first call should start putting their affairs in order so as to be in a position to give the officials in charge every possible assistance when the time comes.

Those to be called in the first class are unmarried men and widowers between the ages of 20 and 34. Medical boards will be established at convenient times which will pass authoritative opinion on the question of physical fitness of those coming under this class and the Military Service Council is presently requesting that all concerned undergo their medical examination as soon as possible. It is pointed out that it will help the members of the class called out to know as soon as possible whether they are physically eligible or not. If they are found unfit they will upon application to the local tribunals be exempted. If found fit, they may consider whether they should apply for exemption upon any other ground or make their arrangements for giving up civilian life.

It will also be to the advantage of employers to see that this matter is attended to as soon as possible, as it will then enable them to see to what extent their staff will be disrupted by the call and thus be in a position to know whether or not they should make application for exemption on other grounds.

POOR SERVICE.

It seems but a few short weeks ago that we were reading about the immense profits made by the C. P. R. company during this last fiscal year. This last few days a number of our merchants have been complaining about the poor service they are getting at the station here and the thought just struck us that if the C. P. R. is giving the same kind of service to all the towns along its system it is no wonder they are able to pile up big profits.

So far as we can figure out the chief cause for the present unsatisfactory service is the inadequacy of the staff to handle the business at this point.

A GOOD INVESTMENT.

Better by one of the government war savings certificates. If they yield over 5 per cent interest and have the whole Dominion of Canada as security. You can get your money back any time you wish or leave it out for three years. A new certificate that is just the thing to teach your boy or girl proper investment habits has just been issued. It costs \$8.00 and pays back \$10.00 at the end of three years. For \$21.00 you can get a certificate redeemable at \$25 in three years, or for \$85 you can get one worth \$100 in three years. That is better than letting your money lie unproductive.

The certificates can be had from any bank, money order post office, or direct from the Department of Finance, Ottawa. Delay costs you money.

The free distribution of pill-herb anti-toxin and typhoid and smallpox vaccine, beginning Sept. 1st, has been announced by Dr. M. M. Seymour, commissioner of public health for Saskatchewan. It would be a good idea if other provinces, such as the Dominion would adopt the system. There is no doubt such a thing will go a long way toward improving the health of the people. Boards of health throughout this province, might bring this matter to the attention of the provincial department of health by passing resolutions asking that this system be adopted in Canada.

Russia's plight is far from desperate, although her best friends recognize the dangerous pitfalls that ahead. It may be that the proclamation of a republic by Premier Kerensky will have an unexpectedly good effect upon the Russian popular mind. It helps to lift the haze of uncertainty that obscures the future of the government and sets forth in clear relief a goal toward which to strive.

The free distribution of diplomas of being a democratic country of many years standing, yet Russia, the latest country to join the republican arena, is already teaching us a few lessons. Kerensky lost no time in putting down disturbers as Kornilov whom he belongs, yet we allow such men as Bourgeois, Levetzoff and Martin to run at large, and make bombs for their poor misguided followers to throw.

The tax sale will be resumed Friday, Sept. 23rd. Those who contemplate building themselves a home in the near future should take advantage of this sale, as they will probably never get another chance to buy property so cheaply in this town again.

A COMING MAN.

A Chicago business man advertised for a boy recently. When he arrived at his office the next morning there came a letter from the boy already in his office. He said he was just about to begin examining the applicants when his stenographer handed him a card on which was scrawled "Don't do anything until you see me. I'm the last kid in the line—but I'm talking you—I'm there with the goods."

Sky-High Live Stock Prices Will Continue

Twenty dollars a hundred for live hogs in Chicago and very near that figure on the Canadian markets—when will the auction stop? Butcher's cattle are selling around \$11. Never before has the Canadian farmer received such prices, and although these prices are high, they are more than offset by those for live stock. What is more, high prices are likely to continue for years after the war.

The big supply of the United States is 3,000,000 head this year, says recently said Dr. J. G. Rutherford, the leading authority on live stock subjects. "In Canada we have such a shortage of hogs that it is quite impossible to supply our own demands from our own hogs, and large quantities of American pork, lard and bacon are being shipped into our country. I feel satisfied that hog breeding here will be increased on the market, will maintain a high figure for many years to come."

"There is a tremendous shortage of cattle all over the world. There is an enormous demand. The number of cattle in the United States has decreased by some 7,000,000 in the last nine years, and that with many more people to feed. We have in Canada the same limitation going on, although we have the corresponding increase of meat-eating population. There has been a tremendous waste in the slaughter of calves. After the war, not only Germany, Austria, Italy and Belgium, but every other country in Europe will have been drained of its supply of cattle and there will be a tremendous demand and the prices will soar far beyond any figure that any of us has ever seen."

Immature Potatoes Are Better for Seed

Potatoes which have not fully matured give better yields than fully matured ones. This has been proved by experiments conducted at the Ontario Agricultural College at Guelph for the past five years. The practice of using immature potatoes is quite common in England.

To the farmers of this country should follow the same practice, and should combine it with hill selection. When the potato vines are beginning to wither, the most vigorous hills can easily be noted. Vigorous tops above ground usually mark a good yield of potatoes below ground. The vigorous hills should be dug at the time the selection is made. Sprouting is late enough in the autumn to make it inadvisable to keep hills in a hill but particularly strong tops, are of good size and yield well, they should be kept for use in hills which do not yield satisfactorily. However, the potatoes should be used for cooking and not saved for seed. As an examination of the field at the time of the year will demonstrate that some hills have retained buds, bigger and better than others, and that the yield of certain hills is higher or than others. The disease-resistant and high-yielding hills will produce better crop than sets taken from common bin or from the planting of small potatoes, as is often the case.

Canned Vegetable Restrictions Repealed

W. J. Hanna, food controller, has repealed the order prohibiting the sale of canned vegetables in Manitoba, Saskatchewan and Alberta. This year he was passed to encourage the use of portable garden sets and conserve the supply of canned food for winter use. Experience has shown that conditions in the prairie provinces differ from those in the other provinces, and make it advisable to repeal these orders.

Russia is Now

A Republic

The provisional government of Russia has issued a manifesto, proclaiming Russia to be a republic state. The proclamation follows: "General Kornilov's rebellion has been quelled, but great is the confusion caused thereby, and again great is the danger threatening the fate of the fatherland and its freedom."

"Holding it necessary to put an end to the external aggressions of the state's organs, remembering the commitment of the Russian people to the republic, the Provisional Government, according to which the Russian state is real, is a republican organization, and it hereby proclaims the Russian state to be a republic."

(Signed)
MINISTER & PRESIDENT KERENSKY.

Nationalist Party Started in England

A news report from London says: "The new national party movement in England launched two weeks ago with the avowed object of promoting 'reform' and 'defence' is gaining headway and progress to become an important influence in future politics. Members of the Liberal party are increasingly large numbers are joining with the Nationalists who laid the foundation for the new party, and members of parliament, both at home and at the front, are lending encouragement to the movement."

"Officers have been set up in most of the principal cities of England, and the movement is soon to be extended to Scotland and Wales."

May be Exempted For These Reasons

Exemption from service, under the Military Service Act, may be claimed on eight separate grounds. The forms of application which will be available at post offices throughout the Dominion in the course of the few days, make the following the grounds on which exemption may be claimed:

- (1) Importance of continuing employment in habitual occupation.
- (2) Importance of continuing employment in the service of the state.
- (3) Importance of continuing education or training.
- (4) Serious hardship owing to exceptional financial obligations.
- (5) Serious hardship owing to exceptional financial obligations.
- (6) Serious hardship owing to exceptional financial obligations.
- (7) Ill health or infirmity.
- (8) Adherence to religious denomination, of which the articles of faith forbid consular service.

The form is drafted much after the style of a ballot paper. The applicant for exemption is required to fill in a cross opposite the grounds on which the claim is made. His case will then go to the local tribunal to which proof in support will be submitted.

Torpedo Missed Large U. S. Liner

A submarine attack on an American steamship, one of the largest liners in trans-Atlantic service, was reported by several of the 100 passengers, who were aboard the United States Army officers, on arrival at an Atlantic port. The mechanism of a torpedo fired by a U-boat went wrong just before the machine seemed about to hit the ship. The torpedo leaped into the air, was knocked off its course, and passed to the rear of the ship.

CASUALTIES AT LENS.

Sir Edward Kemp, writing to a question by Sir Wilfrid Laurier, who asked for the details of the Canadian losses at Lens, said that for the last two weeks of August they totaled 2,586. Of this number 907 were killed, 203 died of wounds, 6,181 were wounded, 11 were taken prisoner, and 2 were believed to be missing, 145 were missing, and 105 died of diseases.

British naval airplanes on Saturday dropped bombs on German destroyers and trawlers along the Belgian coast between Ostend and Helderberg, near Zebrugghe, hitting one destroyer and sinking at least one trawler.

How to Dress for The Days Work

In addressing these under him, a salesmanager gave them this good advice:

"Remember that your success is determined by the state of your mind and the amount of good, honest effort you put into your work. It's time to get up! Stretch your frame of mind, go through a few brisk mental exercises and take a cold plunge into the shower and sparkling refreshment that life before you. Now for a lively rub down until you are agreeable with optimism. Then slide into your union suit. If you slip on your socks of Faith, buckle up your shoes of energy and give your bright outlook a clear shove put on a shirt without a yellow stripe, a clean collar of Determination with a rich tie of Cheerfulness; then put on your comfortable coat of Enthusiasm, with pants and vest to match."

"Don't wait for the season to open in your territory, but have an opening of your own by getting on the job early and going after business wherever you feel there is a bare possibility of making a sale."

U. S. Has Big Potato Crop

America's potato crop will be a vital factor in winning the war according to Assistant Secretary of Agriculture Carl Vrooman. "The country will have at least 100,000,000 bushels of potatoes in excess of the 500,000,000 bushel crop last year," says Mr. Vrooman.

In order to properly conserve this supply and release other foods for military use, Mr. Vrooman declares potato warehouses must be made available in every county in the United States. The crop to be harvested, it was stated, will total 462,000,000 bushels.

Community warehouses are Mr. Vrooman's suggestion for meeting the situation, and he urges farmers' associations, bankers and merchants co-operate to make storage places available.

Will Advertise Food Production

Public buildings in practically every city in the United States will be converted into huge billboards for an advertising campaign just inaugurated by the food administration. "It will be the war—don't waste it," is the slogan that will blaze in bright letters by day and electric lights by night, from post offices, city halls, all government buildings, and advertising companies and electric light corporations have pledged their aid without cost to the government.

ASTOUNDING REPORT FOR REDCLIFF.

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would vomit. Her physician gave her ONE SPOONFUL Buckhorn Balm, glycerine, etc., as mixed in Adler's-Ike and her INSTANTLY. Because Adler-Ike flushes the ENTIRE alimentary canal it relieves ANY CASE constipation, sour stomach or gas and reverts appendicitis. It has QUICKEST action of anything we ever sold. C. T. Hall, Druggist.

Ten of seven pure-bred Plymouth Rock hens for sale; six now laying. R. Wray.

Don't forget that we take orders for men's suits; we have an excellent line of new fangles. Gibson & Tupper.

Dr. J. Cleary Wray left Tuesday morning for Banff where he will spend a few weeks in the hope of regaining his health.

Miss Florence Kopp left last Monday morning for Rochester, Minn., to consult specialists regarding her health.

Material is now on the ground preparatory to commencing building operations on the new telephone exchange here.

Arrangements have been completed for the appearance of a three days Chautauque here either the latter part of October or the first of November.

That the United Grain Growers' Limited, will eventually enter both the milling and meat packing industries is the statement of Cecil Rice-Jones, vice-president.

A carload of 20 three-year-old Aberdeen Angus steers, raised in Alberta, were sold at Calgary last week to a Chicago firm at 12 cents a pound, or a total of \$9,427.20.

The ladies in town who have been gathering clothing to send to the unfortunate children in Belgium expect to have two more boxes ready for shipment this week.

Thrashing is now in full swing in this district and reports from all quarters indicate that the wheat is averaging much better than was expected. It is also a very good quality, most of it going No. 1 and 2.

One of the largest single cattle deals in Canada has just been closed in Edmonton, consists of 2,600 head of choice Alberta beef steers, weighing not less than 1,200 each. The sale involved runs between \$300,000 and \$225,000.

The live stock committee of the food controller's office recommend that the slaughtering of calves be prohibited. He suggests that instead of allowing them to be killed because of a scarcity of food in some districts, they be shipped to other districts where food is more plentiful.

Pie. Charlie Chapman, who was invalided home from the front three months ago and has been in the hospital in Calgary ever since, is now with his mother, Mrs. C. B. Frost, of the Bowell district. He was wounded in both legs but is now able to get around again. Pie. Wm. Chapman, whom we reported as killed in action last week was a brother of Charlie's.

Farmers are so busy these times that some of them lose track of the days. Last Sunday one farmer north of town sent his man to town with a long list of goods and repairs to purchase. Naturally the man was surprised when told the reason the stores were closed was because it was Sunday.

Fifteen new families moved to town during the past week and as many are expected next week.

Early harvest has made it possible in Southern Alberta to get a great deal of land under cultivation for next season.

Be sure to attend the Red Cross meeting next Tuesday. Private Everett will address the meeting at four o'clock.

The running of the town drag over the main streets has made a vast improvement in them, since the recent rains.

A dinner plate with a border of green flowers was taken from the Red Cross lunch room on Labor Day by mistake. Kindly return same to this office.

The British Columbia government is working out plans whereby they can work in conjunction with the Alberta government to regulate inter-provincial trade in the liquor business.

T. A. Hicks intends moving his gun-furnishing store to the Wheeler block on Broadway. He expects to be ready to do business in the new stand shortly after the big seven day sale now on in the old stand.

Harry Chapman, of the Bowell district, sends word home that he was badly cut up in barbed wire entanglements and is now in a hospital. Harry is a brother of Wm. Chapman, who was reported killed last week.

Miss McDonald, who was on the teaching staff at the school last term, is expected to return and resume her duties next week. Miss Walker, who has been raising Miss McDonald's work, leaves shortly for Chicago to take a special course in primary work.

Percy Wray, who is attending Normal at Calgary, won out in a guessing competition last week. The prize was after tickets to one of the leading theatres and Percy treated his Red-cliff student friends to a little theatre party.

E. Hube, who has been having considerable trouble with his eyes lately, underwent an operation yesterday and had his right eye removed. Dr. Brown, of Toronto, who has been in town visiting his son, performed the operation and now the patient is progressing favorably. The operation was deemed necessary as the diseased eye was affecting the other one.

Serge skirts; good values, at Gibson & Tupper's. Try \$4.50 and \$12.00.

WANTED—A Gold mine to rent by the month. Apply to Miss Lester, mer, over Hall's drug store.
